Hi Jill and Paul, I have informed my team. I am not sure how they got into our stores. Is this something that can be purchased at Home Depot?

Hi. This is Paul. I just serviced the store @ 1515 York. I found pieces of DDVP strips placed around the store. This is a serious hazard for those touching it and as well as those in the area. The use of these strips has increased. This is serious environmental issue. Dichlorvos is an organophosphate which affects the cholinesterase levels in the brain and it interferes with proper working of the nervous system in insects as well as humans. I've enclosed photos of what I found.
